plutusart.com — SERP Ranking & SEO Audit Report

Site: https://www.plutusart.com/ | Date: 24 Oct 2026 | Market: Google India (desktop, English) | Keywords: 53

1. Executive summary

plutusart.com appears in organic results for **32 of 53** tracked keywords. It ranks in the top 3 for 10 keywords, top 10 for 10 more, and 11–20 for 7. Average best position across ranked keywords is **11.8**. 21 keywords show no plutusart.com result within the top 57–99 organic positions returned. The strongest positions are on fiberglass and product-category terms (Fiberglass garden statue for sale, Fiberglass Durga Idol, fiberglass hindu gods statue, Fiberglass shiva statue cost). Gaps are concentrated on planter and generic 'fiber statue' terms, plus Buddha, Krishna and Hanuman terms.

The technical foundation is sound: HTTPS with redirects in place, a valid sitemap index, correct canonical tags, indexable robots directives and gzip compression. The main on-page and structured-data gaps are missing meta descriptions on the homepage and shop, no Product schema on product pages, 36 homepage images without alt text, no llms.txt, and several render-blocking scripts.

Indicative overall SEO score: 62 / 100 (needs significant work). This is an analyst estimate from the checks in section 3. The SE Ranking site audit (ID 487390) was still crawling when this report was written; its results are listed in section 4 if they finished.

2. Keyword rankings (Google India)

#	Keyword	Best rank	Band	Ranking URL
1	FIBERGLASS ANIMAL SCULPTURES	3	Top 3	https://www.plutusart.com/product-category/fiberglass-animals/

Full data with all plutusart.com URLs per keyword is in plutusart_serp_rankings.xlsx.

3. Site audit findings

Crawlability & indexation

• PASS: robots.txt exists, allows the site, blocks only WooCommerce cart/log paths and wp-admin, and points to sitemap_index.xml.

• PASS: sitemap index lists 10 sitemaps; product-sitemap (228 URLs), page-sitemap (31), post-sitemap (45), product_cat (24).

• PASS: http and non-www redirect with 301 to https://www.plutusart.com/. Unknown URLs return 404.

• PASS: robots meta is 'index, follow, max-image-preview:large'. Canonical tags are present and self-referencing on the pages checked.

Technical performance

• WARN: homepage HTML is 475 KB uncompressed (142 KB with gzip). 69 script tags and 30 stylesheets load on the homepage.

• WARN: 7 synchronous scripts are in the <head> and block rendering. Defer or async them where possible.

• WARN: no HSTS header detected; add Strict-Transport-Security.

• WARN: 3 Google Fonts stylesheets loaded; self-host or limit weights to reduce requests.

• NOTE: field Core Web Vitals (LCP, INP, CLS) could not be measured from this environment; run PageSpeed Insights or CrUX data to confirm.

On-page SEO

Page	Title (chars)	Meta description	H1	Canonical	og:image
Home /	Home - Fiberglass Statues, Fiber Sculptures, FRP Planters - Plutus Art (70)	MISSING	1 - 'Plutus Art – The Home of Fibreglass Statues'	OK	MISSING
About us	Best Manufacturer and Supplier of Fiberglass and Fiber Status in USA,UK, Australia (82)	OK	1 - About us	OK	OK
Fiberglass statues	Fiberglass Statues, Fiber statues, Fiber Sculptures | Plutus Art (64)	OK	2 H1s	OK	MISSING
Fiberglass planters India	Avail the best fiberglass planters in India at reasonable prices - Plutus Art (77)	OK	1 - Fiberglass Planters India	OK	MISSING
Product: Maa Kali	Fiberglass Maa Kali Statue Classic | 4 Ft Maa Kali Idol Big Size (64)	OK	1 - Fiberglass Maa Kali Statue	OK	OK
Shop	Shop - Fiberglass Statues, Fiber Sculptures, FRP Planters - Plutus Art (70)	MISSING	1 - ALL PRODUCT LIST	OK	MISSING

• FAIL: homepage and shop have no meta description. Add unique 150–160 character descriptions with the core keywords (fiberglass statues, planters, Kolkata manufacturer).

• FAIL: the homepage title starts with 'Home -'. Lead with the main keyword instead, e.g. 'Fiberglass Statues & FRP Planters Manufacturer India | Plutus Art'.

• WARN: the 'Fiberglass statues' category page has two H1 tags. Keep one H1 and make the other an H2.

• WARN: 36 of 214 images on the homepage have no alt text (3 more have empty alt). Add descriptive alt text such as 'Fiberglass Durga idol statue, Kolkata'.

• WARN: the homepage has 194 non-empty H2 elements, mostly repeated menu or slider text. Limit H2s to real section headings so the structure stays clear.

• WARN: og:image is missing on the homepage, the shop and the planters page. Add a default og:image for social sharing.

• WARN: 36 homepage images have no explicit width and height, which can cause layout shift.

• WARN: the homepage links to fiberglassdurga.com and indianseoagency.in. Confirm these are intentional (for example, a footer credit) and set rel='nofollow' or remove them if not.

Structured data

• PASS: Organization, WebSite (with SearchAction), WebPage and BreadcrumbList JSON-LD are present on every page checked.

• FAIL: product pages (e.g. Maa Kali statue) have no Product schema. Add Product markup with name, image, description, brand, sku, offers (price, currency, availability) and aggregateRating where real reviews exist.

• WARN: no FAQPage markup on any page. Adding real FAQs (delivery time, weather proofing, colour guarantee, customisation) can help both rich results and AI answers.

AI SEO (AI search and answer engines)

• FAIL: /llms.txt and /ai.txt return 404. Add an llms.txt that lists the main categories, product families, certificates and contact pages with one-line descriptions.

• PASS: robots.txt does not block AI crawlers (no GPTBot, ClaudeBot or Google-Extended disallow rules), so AI systems can index the site.

• WARN: entity clarity is good (Plutus Art, Kolkata, FRP/fiberglass manufacturer, export markets) but is not consistent across pages. Repeat the brand, location and product scope in the About page and Organization schema (sameAs links to Google Business Profile, Facebook, Instagram, YouTube).

• WARN: expert content on fiberglass production (clay, moulding, casting, priming, painting) is strong. Publish it as a dedicated guide with headings, a short answer near the top and a comparison of FRP and cement or marble, so AI answers can quote it.

Internal linking & content

• Homepage has 434 links (407 internal, 195 unique internal). Mega-menu links are heavy; keep primary category links visible and prune duplicates.

• Category coverage is broad (Durga, Shiva, Buddha, Hindu gods, animal, garden, wedding, planters) but the planter and Buddha category pages are thin on ranking terms that appear in the tracked list (for example 'modern fiberglass planters', 'Fiber Buddha Statue'). Build dedicated category content for these terms.

4. Prioritised recommendations

Priority	Action	Impact
1 - Now	Write unique meta descriptions for the homepage and shop; rewrite the homepage title to lead with the main keyword	CTR and relevance on the highest-traffic pages
1 - Now	Add Product schema (with offers and aggregateRating where real) to all product templates	Rich results, shopping visibility
1 - Now	Add alt text to the 36 missing homepage images; add width and height	Accessibility, image search, CLS
2 - Next	Fix the duplicate H1 on the Fiberglass statues page; cut repeated H2s on the homepage	Clear structure for search engines and screen readers
2 - Next	Add og:image defaults; add HSTS header	Social sharing, security
2 - Next	Defer 7 render-blocking head scripts; reduce homepage script count; self-host fonts	Core Web Vitals (LCP, INP)
2 - Next	Build dedicated pages for the planter and Buddha terms that are not ranking	Gains for the 21 unranked keywords and 'modern fiberglass planters', 'Fiber Buddha Statue' etc.
3 - Later	Publish llms.txt; add FAQPage content; build a fiberglass production guide; add sameAs links to Organization schema	AI search visibility and entity clarity
3 - Later	Confirm and nofollow or remove the outbound links to fiberglassdurga.com and indianseoagency.in	Link equity
Ongoing	Track the 53 keywords weekly in SE Ranking (project 13114085); re-run the site audit after fixes	Measure progress

5. Method and limitations

Rankings: SE Ranking SERP API, Google India, desktop, English, one check per keyword on 24 Oct 2026. Positions are absolute organic positions. 'Not in top' means no plutusart.com result within the 57–99 organic results returned. Keyword search volume and difficulty were not pulled in this report. Audit: raw HTML fetched with curl on the homepage, about, shop, planters, statues category and one product page, plus robots.txt and the sitemap index. Checks were run from one location with no JavaScript rendering, so client-rendered content may differ. Scores are analyst estimates, not a tool score.
